

"THERE MAY BE A PLACE IN LIFE FOR COMPROMISE, BUT NOT ON MY BOAT."

— Healey President, Viking Yachts

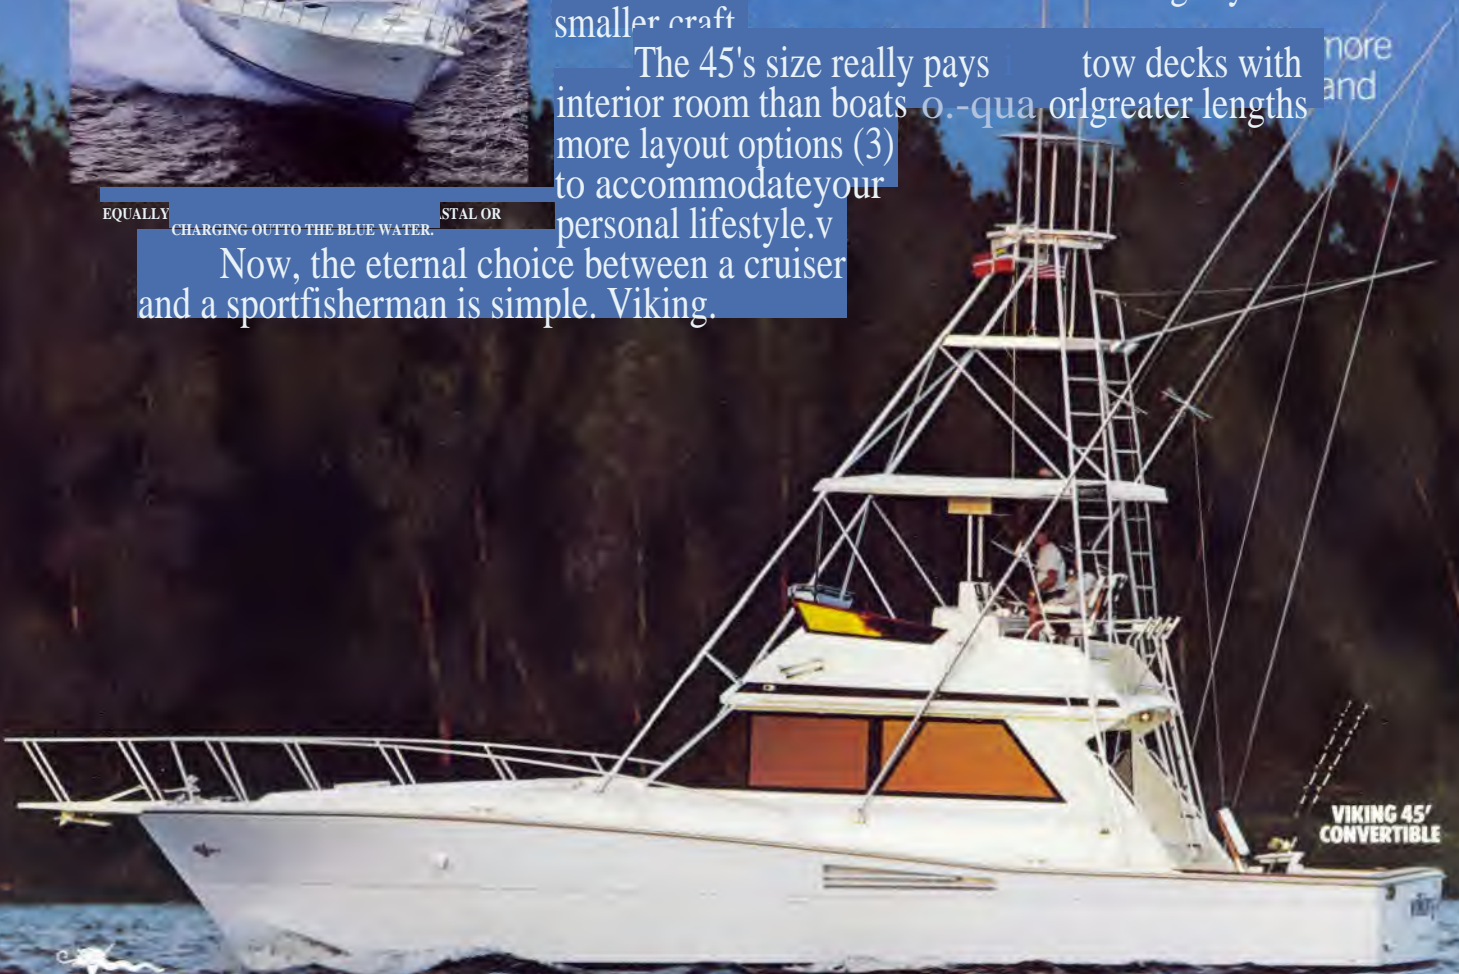

These feisty words express the sentiments—not just of Viking's President—but of the dozens of knowledgeable seamen who have made the Viking 45 our most successful new model in over 25 years. They know that the choice between a spacious, well-equipped cruiser and a seriously competitive sportfisherman need not be a choice at all.

The unique Viking Hull with its aft planing fairbody, reverse-radius chines and twin turbo-diesels move the 45's substantial size with the speed and agility of a much smaller craft.

The 45's size really pays off in two decks with more interior room than boats of equal or greater lengths and more layout options (3) to accommodate your personal lifestyle.

Now, the eternal choice between a cruiser and a sportfisherman is simple. Viking.
