

viking 50
COCKPIT MOTOR YACHT

The new Viking 50...the cockpit motor yacht designed to let you cruise or fish in maximum comfort. Enjoy the best of both worlds, a cruise to Nant' -ket, Georgian Bay, the Bahamas, Catalina Island of aen the fishing gets hot, chase white marlin off the Jersey

off Southern California.

Her optional twin turbocharged diesels provide a cruising speed most sportfisherman would be hard pressed to duplicate, let alone motor yachts! And enjoy this performance without bothersome spray and pounding. Features resulting from the unique hull design synonymous with the name Viking.

The large cockpit, which will accommodate two fishing chairs, is reached by steps from the aft deck. Or while at dockside, is accessible via a transom door.

Moving back up to the spacious aft deck, which can be fully enclosed for maximum comfort, stairs either take you to the flybridge where a party of ten can enjoy the sun or down below to the main salon.

Upon entering the main salon, the center for living and entertaining, a feeling of elegance pervades the air. It results from the custom furniture, drapes, the rich teak paneling, the plush carpeting... right on through to the magnificent built-in entertainment center.

The galley and U-shaped dinette are located forward and down a few short steps. Everything from a quick snack to a gourmet meal can be prepared in the fully equipped L-shaped cooking area. A sit down dinner can easily be served in the dinette directly across to port.

Two private sleeping areas complete the Viking 50's magnificent air conditioned accommodations. Aft of the main salon is the master stateroom featuring a walk around queen size bed, built in storage, hanging locker and head with enclosed shower. All the way forward are the guest quarters with a double bed or over and under berths. Quick access to a second head also equipped with an enclosed shower is provided. If additional berths are required, the dinette and convertible couch in the main salon convert to sleep a total of eight.

The new Viking 50...it offers the best of both worlds.
